Title of Change: Release of AUTOMOUNT COTS Bundle.

Impact if Not Installed

The impact of not installing the identified third party COTS product is as follows:

- Acrobat 4.05 (Solaris) - Current baseline version is not supported on Solaris 8.
- Acrobat 5.0 (PC) - Non compliance with document accessible capabilities (i.e. High contrast support for vision impairments, screen readers, and keyboard shortcuts.)
- Netscape Communicator 4.78 - Existing version may be incompatible with ECS developed HTML interfaces.
- Perl 5.6.1 - ECS Custom software supporting the Solaris 8 upgrade that requires the newly selected Perl modules will not run without this upgrade.
- Sybase Open Client version 12.0.0 for SUN - Sybase Open Client version 11.1.1 reached end of life December 2001. Sybase will no longer provide bug fixes to Sybase Open Client 11.1.1.
- Sybase Open Client version 12.0.0 for SGI - Current baseline version of Sybase 12.0.0 needs EBF9921.
- TCL-Tk 8.3.3 – This TCL-Tk product is a more recent version of the software product for use with Solaris 8.
